Kindness is simple and can change someone's day or life. If each one of us, did just one act of everyday kindness daily, that would equate to **9.1 billion** acts of kindness a year (based on a population of 25 million Australians). For kind July that would be **775 million** acts of kindness. The possibilities are endless – together what a great country we can be.

It feels good to do good. Share and inspire #kindjuly kindness is contagious!

In 2018 researchers from the University of California reported that the headquarters of a Spanish corporate workplace assigned 111 employees to be Givers, Receivers, and Controls.

Participants were told they were part of a happiness study. Givers and Receivers were found to mutually benefit in well-being in both the short-term and the long-term where Receivers became happier after 2 months, and Givers became less depressed and more satisfied with their lives and jobs.

Givers' prosocial acts inspired others to act: Receivers paid their acts of kindness forward with 278% more prosocial behaviours than Controls.

Results from this study also reveal that practicing everyday prosocial behaviours is both emotionally reinforcing and contagious (inspiring kindness and generating hedonic rewards in others) and that receiving everyday prosociality is an unequivocally positive experience.

If 20 acts of everyday kindness in 4 weeks creates this amount of social impact, imagine what Kind July and 31 acts of everyday kindness can do.
